VISION STATEMENT

To become the most proactive and leading Drug Law Enforcement Agency on the African Continent and one of the best in the world through the provision of effective and efficient services to Nigerians by cutting off the supply of illicit drugs, reducing the demand for illicit drugs and other substances of abuse and maintenance of an enviable image for the Nation throughout the world.

MISSION STATEMENT

The National Drug Law Enforcement Agency shall deploy all resources at its disposal for the total eradication of illicit trafficking in narcotic drugs and psychotropic substances; suppression of demand for illicit drugs and other substances of abuse; recovery of ill-gotten wealth, acquired from proceeds of illicit drug trade; protection, enhancement and maintenance of the image of Nigeria and Nigerians at home and abroad.

CHAIRMAN/CHIEF EXECUTIVE OFFICER'S DESK

A glimpse of the country's drug problem was unveiled by the 2018 national drug use survey. The survey, which was funded by the European Union (EU), was conducted by the National Bureau of Statistics (NBS) and the Centre for Research and Information on Substance Abuse (CRISA) with technical support from the United Nations Office on Drugs and Crime (UNODC).

The report highlighted the level of psychoactive substance use in the preceding year. It also captures the use of cannabis and the non-medical use of prescription opioids like tramadol and cough syrups containing codeine, among others. The survey put the prevalence of drug use at 14.4 percent, or 14.3 million Nigerians aged between 15 and 64 years. This is indeed worrisome when compared to the global annual prevalence of 5.6 percent among adults.

It was discovered that one out of seven Nigerians has used drugs in the past year, and one out of every four drug users is a woman. In addition, the study revealed that out of every five drug users, one is drug dependent, while one in five high-risk users injects drugs. Armed with this survey report and the findings of the Presidential Advisory Committee for the Elimination of Drug Abuse (PACEDA), the stage was set for

the serious business of drug control in the country.

Upon assumption of duty on January 18, 2021, I was exposed to the multifaceted impediments militating against the smooth running of the agency. There was poor staff morale, inadequate workforce, and operational tools. Most officers were stagnated in one rank for many years, and there were distortions in the ranking system. The Agency was poorly funded and in huge debt, particularly for the unpaid burial expenses of officers that died in active service for over a decade.

To clear the Augean stable, the management embarked on a number of activities to restore the agency back to the path of glory by addressing the numerous challenges. We conducted harmonization and promotion exercises to address the problem of officers stagnating in one rank for many years. The agency was restructured with the creation of new directorates, units, and zonal commands. This was followed by key command appointments and postings. The protracted recruitment exercise was successfully concluded, thereby increasing the staff strength by 5,000 personnel. We also introduced Command Awards to promote

(Continue on page 8)

**CHAIRMAN CHIEF
EXECUTIVE OFFICER'S DESK**

(Continued from page 7)

healthy competition among the agency formations.

A committee made up of knowledgeable Nigerians drawn from different disciplines, non-governmental organisations and civil society groups known as the Special Purpose Committee was also constituted. This was a way of creating opportunities for members of the public to take ownership of the fight against drugs. The resultant effects of the administrative restructuring and innovation were simply phenomenal. The morale of officers was boosted, and the support from members of the public increased. This led to spectacular arrests and seizures of drugs across the country.

In recognition of our commitment, the agency witnessed unprecedented support from the presidency, national assembly, diplomatic community, traditional rulers, the media, and other relevant stakeholders. Interestingly, the War Against Drug Abuse (WADA) campaign was launched by President Muhammadu Buhari, GCFR, at the commemoration of the International Day Against Drug Abuse and Illicit Trafficking on June 26, 2021.

The WADA project has created a platform for the robust engagement of stakeholders

in drug demand reduction programmes. In addition, the current National Drug Control Master Plan (NDCMP 2021–2025) was launched in the same year by the Honourable Attorney General and Minister of Justice, Abubakar Malami, SAN. The overall goal of this strategic document is to improve health and security for everyone living in the country.

No doubt, the year 2021 was significant not only in rescuing the nation's drug control programme from derailment but in redefining the best strategies to adopt in line with evidence-based drug abuse prevention. The results of the year are humbling and could not have been possible without the political will of Mr President as well as the cooperation of our local and international partners. Although there is still work to be done, we are pleased with the renewed vigour and enthusiasm of stakeholders. It is time to reinvigorate our efforts on the platforms of both WADA and NDCMP. The coming year is indeed very promising.

1. BRIEF HISTORY OF THE NATIONAL DRUG LAW ENFORCEMENT AGENCY

1.0 BACKGROUND

The Government of Nigeria (GON) was deeply concerned about the magnitude and rising trend of narcotic drugs and psychotropic substances demand and trafficking. This was due to the consequences of drugs on the user, the family, and society at large. In addition, the link between narcotic drugs and other related organized criminal activities like terrorism, banditry, kidnapping, and murder, among others, was a critical area of concern to the government.

Unfortunately, the arrest of some Nigerians for drug trafficking outside the country was considered an embarrassment to the country. These and other factors eventually led to the establishment of the National Drug Law Enforcement Agency (NDLEA). This bold step was to ensure the effective eradication of illicit drug production, trafficking, and abuse in the country. Nigeria has also played an active role in global drug control programmes as a signatory to all the United Nations International Conventions on Drugs and Psychotropic substances.

Prior to the establishment of the NDLEA through decree No. 48 of 1989, which is now known as the NDLEA Act CAP N30, Laws of the Federation of Nigeria, there existed drug control laws in the country. They include the Dangerous Drug Act of 1935 and the Hemp Act of 1966, among others. The function of drug control was initially performed by various security agencies like the Nigeria Customs Service, Nigeria Immigration Service, and Nigeria

Police.

The NDLEA Act empowered the Agency to coordinate all drug laws and policies previously conferred on any other statutory body in the country. This included campaigns to check the abuse of narcotics and psychotropic substances. Accordingly, the NDLEA became the sole prosecuting body for drug cases in Nigeria. Thus, other organisations and even individuals can arrest a suspected drug offender and seize narcotic drugs, but they are required by law to immediately transfer both the suspects and drug exhibits to the nearest NDLEA command for investigation and prosecution.

1.1 FUNCTIONS OF THE AGENCY

The functions of the Agency as stated in the NDLEA Act (CAP N30 LFN 2004) are as follows:

(a) The enforcement and the due administration of the provisions of the NDLEA Act;

(b) The coordination of all drug laws and enforcement conferred on any person or authority, including Ministers in the Government of the Federation, by any such laws;

(c) Adoption of measures to identify, trace, freeze, confiscate or seize proceeds derived from drug-related offences or property whose value corresponds to such proceeds;

(d) Adoption of measures to eradicate illicit cultivation of narcotic plants and to

eliminate illicit demand for narcotic drugs and psychotropic substances with a view to reducing human suffering and eliminating financial incentives for illicit traffic in narcotic drugs and psychotropic substances;

(e) taking such measures which might require the taking of reasonable precautions to prevent the use of ordinary means of transport for illicit traffic in narcotic drugs including making special arrangements with transport owners;

(f) Adoption of measures which shall include coordinated preventive and repressive action, introduction and maintenance of investigative and control techniques;

(g) Adoption of measures to increase the effectiveness of eradication efforts;

(h) The facilitation of rapid exchange of scientific and technical information and the conduct of research geared towards eradication of illicit use of narcotic drugs and psychotropic substances;

(I) Taking measures for the early destruction of or disposal of the narcotic drugs and psychotropic substances which have been seized, confiscated and forfeited;

(j) Facilitation or encouragement of the presence or availability of persons, including persons in custody who consent to assist in investigations or participate in proceedings relating to narcotic drugs and psychotropic substances;

(k) Enhancing the effectiveness of law enforcement to suppress illicit traffic in narcotic drugs and psychotropic substances;

(l) establishing, maintaining and securing communication to facilitate the rapid exchange of information concerning offences and improving international cooperation in the suppression of illicit traffic in narcotic drugs and psychotropic substances by road, sea and air;

(m) Reinforcing and supplementing the measures provided in the Convention on Narcotic Drugs 1961, as amended by the 1972 Protocol; the 1971 Convention on psychotropic Substances and the United Nations convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances 1988 as adopted by the Nigerian domestic law, in order to counter the magnitude and extent of illicit traffic in narcotic drugs and psychotropic substances and its grave consequences;

(n) Taking such measures that may ensure the elimination and prevention of the root causes of the problems of narcotic drugs and psychotropic substances;

(o) Strengthening and enhancing effective legal means for international cooperation in criminal matters for suppressing international activities of illicit traffic in narcotic drugs and psychotropic substances;

(p) collaborating with government bodies within and outside Nigeria carrying out functions wholly or in part analogous to those of the Agency concerning among others –

(l) the identities, whereabouts and activities of

persons suspected of being involved in offences mentioned in this Act;

(ii) *the movement of proceeds or property derived from the commission of such offences;*

(iii) *the movement of narcotic drugs and psychotropic substances specified in the Second Schedule to this Act, and instrumentalities used or intended for use in the commission of such offences;*

(iv) *the exchange of personnel and other experts*

(v) *the establishment and maintenance of a system for monitoring international dealings in narcotic drugs and psychotropic substances in order to identify suspicious transactions and persons engaged in them;*

(q) Taking charge, supervising, controlling, coordinating all the responsibilities, functions and activities relating to arrest, investigation and prosecution of all offences connected with or relating to illicit traffic in narcotic drugs and psychotropic substances, notwithstanding any law to the contrary; and

(r) Strengthening co-operation with the Office of the Attorney General of the Federation, the Police Force, Customs Agencies, Immigration services, *officials, health officials and other law enforcement agencies in the*

eradication of illicit traffic in narcotic drugs and psychotropic substances.

1.2 SPECIAL POWERS OF THE AGENCY

The Agency has powers:

a. *To cause investigation to be conducted as to whether any person has committed an offence under the Act;*

b. *To ascertain whether any person has been involved in offences under the Act or in the process of such offences to cause investigation to be conducted into properties of any person if it appears to the Agency that the person's life style and properties worth do not match his ostentatious living;*

c. *For the purpose of inquiring into and ascertaining whether an offence under paragraph (b) subsection(ii) of this section has been committed, the Agency may by notice in writing call upon any one to furnish it within a time specified in the notice, with information, returns, accounts, books, or other documents in custody of such persons as the Agency may consider fit and proper in the circumstances;*

d. *The Agency shall not exercise the power conferred upon it by paragraph (b) of this section without first obtaining the approval of the Attorney General of the Federation. For the purposes of carrying out or enforcing the Act, all officers of the Agency involved in the enforcement of the provisions of the Act shall have the same powers, authority and privileges (including power to*

carry arms) as are given by law to the members of the Nigeria Police.

1.3 OPERATIONAL SCOPE

The NDLEA is the main organ of the GON responsible for the control of illicit drug production, trafficking and abuse. It also plays a leading and coordinating role in

drug demand reduction, drug control policy formulation and implementation in the country. Established in 1989, the Agency has had ten (10) Chief Executives to date. The National Headquarters of the NDLEA is located at No. 6, Port-Harcourt Crescent, Off Gimbya Street, Area 11, Federal Capital Territory (FCT)

2.0 DIRECTORATES

The 16 directorates of the Agency are listed below.

- a. Directorate of Prosecution and Legal Services
- b. Directorate of Planning Research and Statistics
- c. Directorate of Operations and General Investigations
- d. Directorate of Training and Manpower Development
- e. Directorate of Administration and Establishment
- f. Directorate of Assets and Financial Investigations
- g. Directorate of Technical Services
- h. Directorate of Drug Demand Reduction
- i. Directorate of Intelligence
- j. Directorate of Seaport Operations
- k. Directorate of Airport Operations
- l. Directorate of Finance and Accounts
- m. Directorate of Internal Affairs/Provost Marshall
- n. Directorate of Media and Advocacy
- o. Directorate of Special Duties/Strike Force
- p. Directorate of Forensic and Chemical Monitoring

➤ ADMINISTRATION

The Agency has sixteen (16) established directorates and nine (9) autonomous units and offices that work together to carry out the drug control mandate assigned to it. The administrative and operational offices are located in 36 States and the Federal Capital Territory (FCT), Abuja. Also, there are twelve (12) Special Area Commands (SAC) that are situated at the nation's international airports, seaports, and land borders.

➤ CCEO AUTONOMOUS UNITS:

- i. Chairman/Chief Executive Officer's Office
- ii. Office of the Secretary to the Agency
- iii. National Drug Control Strategy (NDCS)/Inter-ministerial Drug Control Secretariat
- iv. External Affairs
- v. Internal Audit
- vi. Procurement
- vii. Lagos Liaison Services
- viii. Chairman's Monitoring Team
- ix. Sensitive Intelligence Unit

2.1 AGENCY PERSONNEL

The agency’s staff strength, as at December 31, 2021, stands at nine thousand, five hundred and thirty-seven (9,539). The officers and men are deployed at the NHQ Abuja, 50 field operational commands, the Training Academy in Jos, and Lagos Liaison Services in the discharge of their statutory mandate. The total staff population represents a ratio of one (1) drug agent to over twenty-one thousand, four hundred and twenty Nigerians (1:20,966) using the population estimate of two hundred million (200,000,000) Nigerians. However, this situation is expected to improve with the FGN's approval for the recruitment of additional officers in the coming years.

... 2021 Operational Results

A motorised concrete mixer truck used to conceal 2,000.6kg of cannabis

3.0 DRUG SUPPLY SUPPRESSION

Some of the spectacular seizures arising from the Agency's improved intelligence management process include: Interception of 451,807 tablets of CAPTAGON tablets weighing 79,119kg in September at Apapa Seaport Lagos, which is the first ever recorded seizure of Captagon in West and Central African Sub-Region; seizure of 1,994,400 capsules of Tramadol in February at Apapa seaport, Lagos; 144,400 bottles of codeine syrup in March at Apapa seaport, Lagos; seizure of 43.110kg Cocaine in February at Tincan seaport, Lagos; 22,590kg Codeine syrup in September at Tincan seaport, Lagos. Others include seizure of 26.840kg Cocaine, the biggest single seizure from an individual in 15 years, at the Murtala Mohammed International Airport, MMIA, Lagos in January; 24.05kg Heroin at the MMIA, Lagos in April; 27.95kg Cocaine at the MMIA, Lagos in May; and 26.15kg Heroin at the MMIA, Lagos in July, all in 2021. Four large cannabis warehouses with an estimated street value of N1.4 billion, weighing two hundred and thirty-three thousand, seven hundred and seventy-eight kilograms (233,778 kg) were also found inside Ukpuje forest in the Owan West Local Government Area of Edo State.

Similarly, about two million capsules of Tramadol, precisely 1,994,400 capsules weighing 614.396 kilograms were detected in 554 cartons falsely declared as ceramic tiles at the Apapa seaport. An attempt to smuggle 30 parcels of cocaine weighing 32.9 kilograms into the country at the Apapa seaport was again foiled by the Agency. Interestingly, the Federal High Court in Lagos ordered the interim forfeiture of the vessel, MV Chayaneenre, which was used to smuggle the drug to the Federal Government of Nigeria.

At the Onne seaport command in Port-Harcourt, Rivers State, 100,000 bottles of Codeine cough syrup with a total weight of 15,325 kilograms were equally intercepted. The drug was packed in 500 cartons, and concealed in a container imported from India.

At the Murtala Mohammed International Airport (MMIA) command in Lagos, a total of 104.44 kilograms comprising 53.94kg of cocaine and 50.2kg of heroin, were intercepted in four separate operations. The directorate of operations and general investigations of the agency seized 500 grammes of heroin hidden inside auto spare parts going to Canada, while 140 grammes of methamphetamine hidden inside a statue of the blessed Mary destined for the Philippines were also seized. The Agency also uncovered a cannabis warehouse in Rivers where 621kg of compressed cannabis sativa was seized in Abuja Estate of Port Harcourt metropolis. The Joint Task Force (JTF) Operation Unit of the Agency arrested a suspected drug baron, Mr Chidi Olife, who escaped arrest for the unlawful importation of 5.250kg of heroin concealed in books from Karachi, Pakistan, to Lagos and had been on the wanted list since June 2010.

There was a seizure of 1,292 kilograms of illicit drugs in Ondo forest, where 9 suspects were apprehended. Out of the figure, 711.5kg of cannabis seeds were recovered from a forest in the Ago Oyibo area of Ogbese, Akure North Local Government Area of the state. A 70-year-old drug trafficker, Mohammed Rabiu Wada, who supplies illicit substances to Boko Haram insurgents and bandits, was arrested in Niger state.

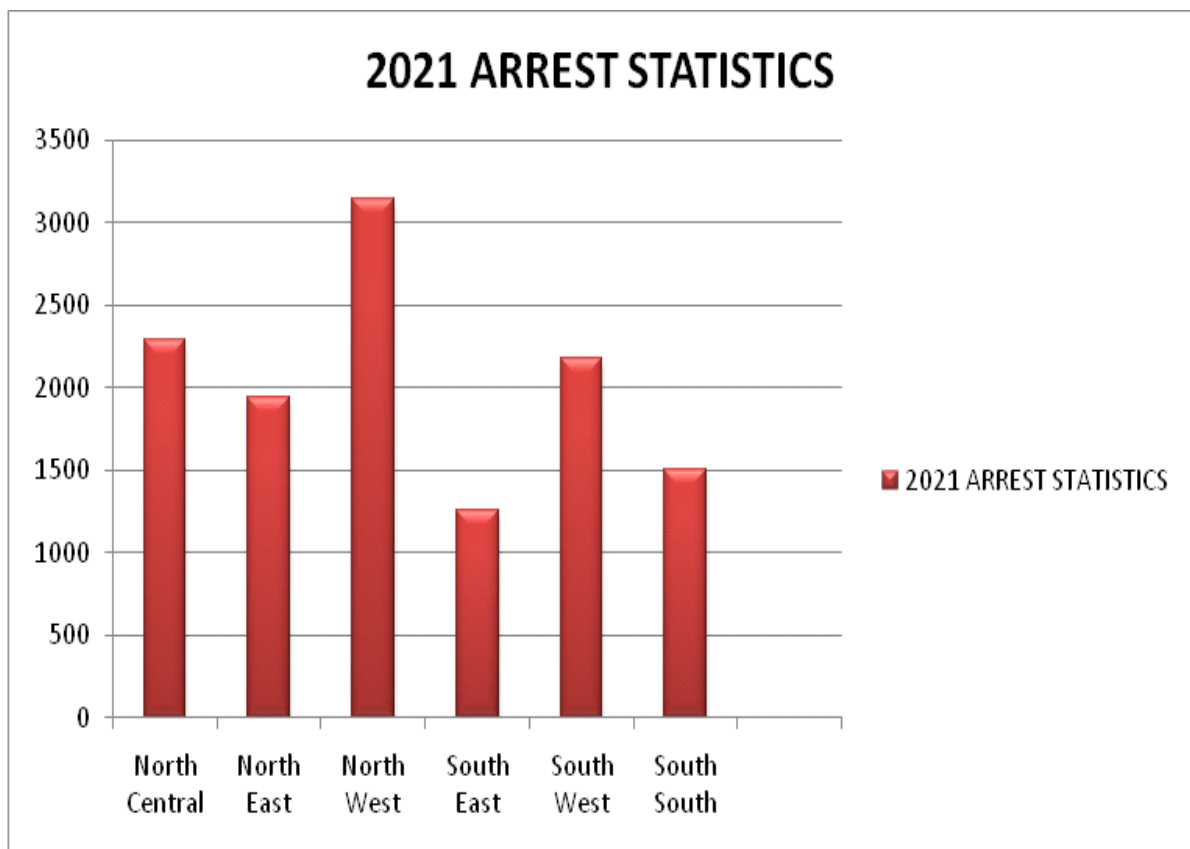

The suspect who hails from Dallawa town, Niger Republic, was found in possession of 10 pallets of skunk at Jebba, Niger state. In the same vein, operatives in Kogi state intercepted and seized 116.1kilogramme of cannabis at a patrol point along the Okene-Lokoja expressway. A Chadian lady was nabbed at the Abuja airport with 234 grams of heroin concealed in her private part while trying to board an Ethiopian airline flight 911 enroute Addis Ababa-Italy.

NOTE:

The table above indicates that Ethiopian Airlines was the most frequently patronised flight by couriers during the period under consideration. Seizures not assigned to any flight at the time of interception accounted for 27.2 percent while courier houses seizures are 10.4 percent.

3.2 VISA CLEARANCE

The visa clearance policy enables the agency to conduct a background investigation of visa applicants. This is to make certain that visa applicants to drug source countries have no link to drug trafficking cartels. The scrupulous screening process of the agency has made more countries subscribe to the policy.

A total of 1,021 applications were received for the year. Of those, 959 were cleared, and 15 were declined, while 47 are pending. The pending cases are those with incomplete records. They will be attended to as soon as the necessary requirements are met.

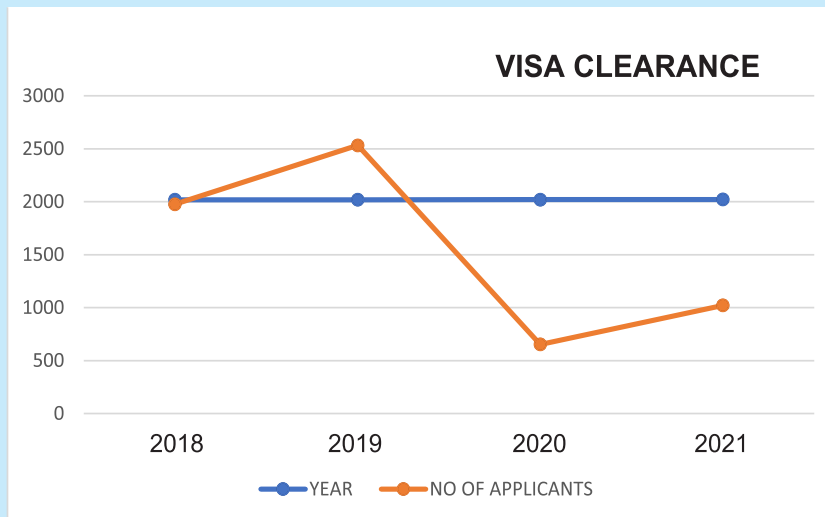

VISA CLEARANCE TABLE

MONTH	RECEIVED	CLEARED	REJECTED	PENDING

14.	Spain	1
	TOTAL	76

3.4 PUBLIC DESTRUCTION OF DRUG EXHIBITS

The agency publicly destroyed drug exhibits whose cases had been concluded in court and relevant legal orders for the destruction had been obtained. In 2021, the destruction exercises took place in two State commands. They are the FCT command with 19,883.92kg and the Osun State command with 24,486kg, totalling 44,369.92kg of various narcotic drugs.

This is in accordance with the NDLEA Act that provides for the taking of measures for the early destruction of or disposal of narcotic drugs and psychotropic substances confiscated and forfeited.

PUBLIC DESTRUCTION OF DRUG EXHIBITS (LOCATION AND QUANTITY)

S/N	COMMAND	QUANTITY IN KG
1.	Osun	24,486
2.	FCT	19,883.92
	Total	44,369.92

Stakeholders jointly setting drug seizures ablaze upon forfeiture by the Federal High Court

3.5 INTERDICTION SUMMARY

The Agency in 2021 arrested **12,306** suspected drug traffickers, made up of **11,314** males and **992** females. The total quantity of drugs seized stood at **580,130.5 kilograms**. The breakdown of the seized drugs is as follows: Cannabis weighed **469,246.4 kilograms**, cocaine **326.05 kilograms**, heroin **122.55 kilograms**, methamphetamine **76.69 kilograms**, and Tramadol **32,709.43 kilograms**. Others are Rophynol **87.76 kilograms**, Codeine **68,198.98 kilograms**, Diazepam **1,814.53 kilograms**, and others **7795.04 kilograms**. A total of **405.705** hectares of cannabis farms were discovered in eleven (11) States.

The cannabis that was seized and destroyed weighed **2.9 million kilograms**. The largest quantity of drugs, weighing **305,390.27 kilograms** was seized in the South South zone. This was followed by **217,342.17 kilograms** of drugs seized in the South West zone. The North Central zone had a total of **20,737.94 kilograms**, while the North West accounted for **18,933.2 kilograms**.

However, in 2020, the agency arrested

9,915 suspected drug traffickers with **144,795.6 kilograms** of illicit drugs. This figure is made up of 9,181 males and 734 females. The breakdown of the drugs is as follows: cannabis **24,473.3 kilograms**; cocaine **105.65 kilograms**; heroin **7.55 kilograms**; methamphetamine **59.55 kilograms**; and Tramadol **10,126.54 kilograms**. Others are Rophynol **254.23 kilograms**, Codeine **1047.43 kilograms**, Diazepam **140.37 kilograms**, and others, **8,581.10 kilograms**.

These figures above indicate an increase of **24.115** percent in the number of drug suspects arrested and an increase of **2,226.91** percent in drug seizures made in 2021 over that of 2020.

4.0 DRUG TRAFFICKING AND ABUSE TREND

The drug trafficking trend in the country has taken a slightly different dimension since the outbreak of the COVID-19 pandemic. We have observed the use of online platforms for sales of drugs and home service delivery services. A dangerous development was also uncovered with the arrest of a drug syndicate that produces drug cookies. An investigation revealed that the cookies were laced with assorted drugs like Arizona, a highly potent psychoactive variant of cannabis, alcohol, and rohypnol, among other ingredients.

Unfortunately, such drug cookies are not only locally produced but equally imported. Members of the drug cartel were caught selling drug cookies to school children and other unsuspecting members of the public. The agency also observed the growing use of methamphetamine in the country. Methamphetamine seizures were recorded in 25 State commands in the country in the year under review.

Also worthy of note is the worrisome use of methamphetamine in the South East, where it is called *Mkpuru Mmiri*, meaning Seed of Water. The growing use of methamphetamine among young people in the East is worrisome. Also, the use of more than one drug, otherwise known as polydrug use, was equally observed. This involves the mixing of assorted drugs in beverages, all in a bid to get high.

In the area of drug trafficking, cannabis remains the most prevalent drug in the country. It accounted for the largest chunk of seized drugs because, out of 580,130.5 kilograms of drugs seized, cannabis weighed 469,246.4 kilograms apart from the 2.9 kilograms destroyed. Tramadol seizures were made in almost all commands in the country, with a total of 32,709.43 kilograms. The non-medical use of codeine cough syrup was equally noticed as the total seizure weighed 68,198.98 kilograms.

Picture of Methamphetamine

ASSETS & FINANCIAL INVESTIGATION

5.0 ASSETS AND FINANCIAL INVESTIGATION

The Agency has adopted strategies to financially incapacitate drug offenders by investigating the assets of persons arrested for committing offences under the NDLEA Act. In 2021, the Agency investigated 37 (thirty-seven) major cases. The monies that were investigated and seized are as follows:

- \$500,000 (Five hundred thousand United States Dollars.)
- N30,335,545,377.74 (Thirty billion, three hundred and thirty five million, five hundred and forty five thousand, three hundred and seventy seven naira, seventy four Kobo.)
- 102,000 pounds (One hundred and two thousand British pounds.)

- 14 million CFA (Fourteen million CFA Francs)

The total amount of money under interim forfeiture is as follows:

- N252,407,726.20 (Two hundred and fifty two million, four hundred and seven thousand, seven hundred and twenty six naira, twenty Kobo.)

The agency is committed to the tracing and full recovery of illicit proceeds of drugs from traffickers.

6.0 PROSECUTION ACTIVITIES

The prosecution of arrested drug offenders plays an important role in anti-narcotics control. Apart from providing legal opinions on drug-related cases and other matters relating to the agency, the directorate of prosecution and legal services ensures that arrested drug traffickers are prosecuted in accordance with the law. Members of the public are discouraged from drug trafficking when there is diligent prosecution, speedy dispensation of justice, and the award of commensurate punishment.

In 2021, the agency successfully prosecuted 1,385 drug traffickers, including seven drug barons, while **1,502** cases were pending in court as at December 31st, 2021. Those convicted include **1,335** males and **50** females. The highest number of convictions was recorded by the Jigawa State command, with **102** cases won. The Federal Capital Territory (FCT) command occupied the second position with 101 cases, while the Kano State command took the third position with 73 convicts for the year under review.

Some notable sentences include the sentence of Kalu Orji, to ten years of imprisonment for dealing in 252 grams of cannabis at the Federal High Court in Abia State. One Abdullahi Ibrahim was sentenced to fourteen years imprisonment at the Federal High Court Kano Judicial Division for a charge of possession of 500 grams of cannabis sativa. Also at the Federal High Court in Kano, one Phelemon Reuben was convicted and sentenced to fifteen years of imprisonment for possessing 340 kilograms of cannabis sativa.

Within the period under review, the Agency successfully prosecuted some appeal cases to a conclusion. Worthy of mention is the case involving Philip Biokpo versus

1. National Drug Law Enforcement Agency
2. The Chairman NDLEA
3. The Director of Administration and Finance, NDLEA
4. The Assistant Director, Finance, NDLEA

In this case, judgement was delivered at the lower court (the National Industrial Court of Nigeria) against the appellant, who sought declaration orders against the Agency as well as general and exemplary damages in the sum of **twenty-five million (N25,000,000)** and **ten million (N10,000,000)** respectively against the Agency. Dissatisfied with the judgement, he appealed to the court of Appeal; the court upheld the decision of the lower court and dismissed the appeal as unmeritorious.

Similarly, in the case of NDLEA versus Mohammed Zakari, judgement was given against the Agency by the Federal High Court. On appeal by the Agency, the said judgement was reversed.

However, the Agency is making efforts to strengthen the legal framework through periodic review. This will ensure that identified gaps in the prosecution of drug cases are closed through the amendment of the Act.

7.0 DRUG DEMAND REDUCTION

One of the statutory responsibilities of the Agency is to effectively educate and sensitize members of the public on the dangers inherent in drug trafficking and abuse. It encompasses drug abuse prevention education, research, and Non-Governmental Organisation (NGO) services as well as treatment and rehabilitation.

The Drug Demand Reduction Directorate collects, collates, and analyzes drug use data from the States and Special Area Commands. The data collected helps to generate an empirical report on the emerging trend and pattern of drug use, abuse, and trafficking within the country. These activities were carefully executed in accordance with evidence-based practice.

Drug abuse prevention education is one of the strategies for providing facts on drugs and substance use. This is aimed at highlighting the dangers inherent in the use of drugs. The launch of the War Against Drug Abuse (WADA) has also provided a suitable platform to boost drug demand reduction activities across the country.

The Agency took the advocacy campaign under the WADA platform to schools, markets, motor parks, communities, workplaces, and religious organisations among others. Interestingly, NGOs and other stakeholders have equally promoted anti-drug abuse sensitization by targeting different groups, particularly women and youths out of school.

In the area of counseling and rehabilitation, a total of 7,096 persons with drug abuse problems received brief intervention services. They include 6,717 males and 379 females. However, 662 others, comprising 630 males and 32 females, were rehabilitated in the Agency facilities across State commands. The Agency also carried out follow-up and after care services for discharged clients who were reintegrated with their families. North West has the highest number of rehabilitated cases with 202 clients. This was followed by South East with 130 and South South with 126.

Another objective of the enlightenment programmes is to create awareness that drug use problems are public health challenges like malaria, diabetics and stomach ulcer just to mention a few. This perception will help to eliminate stigmatisation of patients and encourage them to seek early treatment both at the Agency rehabilitation centres and other health care facilities.

Cannabis was found to be the highest drug of abuse in the country. This was closely followed by tramadol and codeine based cough syrups. Some of the patients also reported the abuse of more than one type of drug, a situation known as poly-drug use.

6	SOUTH-SOUTH	103	23	126	19.04%
TOTAL		630	32	662	100%

The above table shows that North West had the highest number of clients with 202 (30.52%). This was followed by South East recording 130 (19.64%) and South – South with 126 (19.04%).

**PASSING OUT PARADE OF NEW OFFICERS AT THE NDLEA TRAINING ACADEMY JOS,
PLATEAU STATE.**

8.0 TRAINING AND MANPOWER DEVELOPMENT

The Agency successfully engaged in various professional and specialized capacity-building courses on narcotics control, administration, and collaborative efforts. The training provided was aimed at enhancing the competence and confidence level of the officers on the job, with the overall objective of raising the professional standard of operations and administration.

In the period under review, numerous local and international training partnerships were engaged by the Agency. Strategic partnership support came from the European Union (EU) and other International Organisations such as the

United Nations Office on Drugs and Crime (UNODC) and the International Organization for Migration (IOM). The United States of America, Germany, France, the United Kingdom, and many others have also supported our training programmes.

The Agency participated in the development of the Standard Operating Procedures (SOP) for Inter-Agency collaborations at the International Borders organised by IOM. The training covers Cooperation in Border Security Management, Transnational Organized Crimes, Investigation and Data Intelligence Exploitation.

TABLE
AGENCY'S STATISTICS OF TRAINING IN 2021

S/N	Type of Training	No of Participants	Locations
1	Monthly Training	11,109	Directorates & Commands

6.	Basic Training	5, 000	Jos, Nigeria
	Grand Total	17, 260	

9.0 FORENSIC AND CHEMICAL MONITORING

The Directorate of Forensic and Chemical Monitoring ensures that seized substances are scientifically tested to ascertain their true identity and components. The results of testing and scientific analysis of drugs are crucial for the successful prosecution of drug cases. During the period under review, the directorate conducted analysis on a total of a thousand, nine hundred and one (1,901) drug samples both at the national headquarters and various commands nationwide. The breakdown is contained in the table below.

Table of Tested Drug Samples

DRUG TYPE	SAMPLE TESTED
ATS	73
CANNABIS	1,099
CATHA - EDULIS	26
COCAINE	199
OPIATES	102
NEGATIVES	151
PRECURSOR CHEMICALS	01
PSYCHOTROPIC	330
TOTAL	1,901

10.0 NATIONAL DRUG CONTROL MASTER PLAN (NDCMP 2021-2025)

The National Drug Control Master Plan (NDCMP) 2021–2025 is a strategic instrument for addressing the complex problems of drug trafficking, production, cultivation, and use in Nigeria. This edition is an improvement on previous plans by building on the experience gathered over the years. It is a comprehensive, balanced, and inclusive approach to addressing a wide range of drug issues.

Nigeria has been consistent in its strategic response to the evolving drug situation with the development of several master plans. The first NDCMP was produced in 1999, followed by the second, implemented from 2008 to 2013, and the third, from 2015 to 2020. The fourth and current NDCMP, 2021 to 2025, represents continuity and sustainability on the part of the Nigerian government in addressing the drug problem.

The NDCMP 2021–2025 is a product of two years of coordinated, collaborative, and multi-agency effort comprising experts from all the relevant Ministries, Department and Agencies (MDAs) as well as Civil Society Organizations

(CSOs). Interestingly, it was developed with the technical support of the UNODC. The master plan is a results-based strategic planning tool for coordinating interventions against illicit drug production, trafficking, and use as well as related organized crime in Nigeria.

The Plan contains four strategic pillars, namely: Supply Reduction; Drug Demand Reduction; Access to Controlled Medicines for Medical and Scientific Purposes; and Governance and Coordination. Each of the strategic pillars is anchored on one or two MDAs of the government that will be responsible for achieving the desired outcomes.

The main goal of the NDCMP 2021–2025 is to contribute to improved health and security for all Nigerians. It recognizes that the problems caused by drug supply and consumption affect more than just the people who use drugs. The health and socio-economic impact of drugs also extends to families, communities, and the entire nation. This explains the need for a national strategy that engages relevant stakeholders in the implementation of key activities.

Public unveiling of the National Drug Control Master Plan (NDCMP 2021 - 2025) by stakeholders in Abuja

Summary of 2021 Finances

11.0 FINANCES

The 2021 approved appropriation for the Agency is as follows:

Details	2021 Appropriation	2021 Releases	% Released
Recurrent Personnel Cost	9,195,356,166:45	9,195,356,166:45	100%
Recurrent Overhead Cost	398,973,302:14	398,973,302:14	100%
Capital Expenditure	2,965,167,283	2,965,167,283	100%

Projection/Conclusion

12.0 CONCLUSION/PROJECTION

There is no gainsaying the fact that the year 2021 was marked by interesting and exciting developments in the agency. It was a period of new life and activities as officers were motivated by harmonisation and promotion after many years of stagnation. Accumulated allowances of officers, including benefits of diseased personnel, were paid. The collaboration with local and international partners was impressive, culminating in a flurry of arrests, seizures and support programmes.

The War Against Drug Abuse (WADA) campaign, launched by President Muhammadu Buhari, GCFR, has rejuvenated public sensitisation programmes across the country. Non-governmental organisations, civil society groups, and stakeholders were more vibrant and enthusiastic in driving the anti-

drug abuse campaign. Besides, the launch of the National Drug Control Master Plan (NDCMP) 2021–2025 and WADA provided opportunities for the articulation of drug control policies and programmes for the next four years.

This has paved the way for the robust engagement of a wide group of stakeholders in the fight against illicit drug production, trafficking, and abuse in the country. Expectedly, the coming years are very promising for the country's drug control programmes. As the agency takes the leading role in evidence-based programmes, the renewed partnership will provide a platform to intensify the onslaught against drug trafficking cartels. In the days ahead, better operational results in both drug supply and drug demand reduction are anticipated.
